

Primex Light

The System itself

Integrate your individual Image, printed on textile, in an elegant aluminum frame in your desired size. The ideal solution for advertising, retail, commercial and interior decoration. The motif can be exchanged quick and easy, you stay flexible in design.

Light

Primex illuminates your motif with high quality LEDs which create an equal, homogenous lighting. We offer three different types of light technology in different Profiles – according to your requirements.

Design your individual Light Element, Light Wall or Light Ceiling with Primex Light Boxes to create your desired room atmosphere – and an optical highlight.
